Career Objective

Computer Science and Engineering (AIML) undergraduate with hands-on experience in Python, C, and C++, along with exposure to object-oriented programming and backend systems. Interested in contributing as a software developer by building reliable, scalable applications while continuously strengthening core engineering skills.

Experience

CodSoft

Virtual Internship — Python & Machine Learning

May 2025 – June 2025

- Designed and implemented a Python-based random password generator supporting multiple character constraints, improving understanding of secure string handling
- Built and evaluated supervised machine learning models for credit card fraud detection and customer churn prediction using structured datasets
- Implemented a spam SMS classification system to distinguish between spam and legitimate messages using text-based machine learning techniques

Education

Noida Institute of Engineering & Technology, Greater Noida

Bachelor of Technology in Computer Science and Engineering (AIML) — CGPA: 8.89

2023 – 2027

Hansraj Smarak Sr. Sec. School, Delhi

Intermediate — 74.8%

2022 – 2023

High School — 91.5%

2020 – 2021

Projects

Real-Time Public Transport Tracking System

Django, GPS Tracking, REST APIs

Sep 2025 – Dec 2025

- Engineered a real-time public transport tracking system enabling consistent vehicle location updates
- Improved tracking reliability by implementing route prediction logic for low-bandwidth network conditions

Plant Disease Detection Using Leaf Images

Python, Convolutional Neural Networks

Mar 2025 – Jun 2025

- Built a CNN-based model to classify plant diseases from leaf images across multiple disease categories
- Enhanced classification performance using image preprocessing and data augmentation techniques

Certifications

- NPTEL Elite: Introduction to Programming in C, Operating Systems Fundamentals
- Infosys Springboard: React JS, Object-Oriented Programming using Python
- Cisco Networking Academy: Cybersecurity Essentials, Network Essentials

Skills

- Programming Languages: Python, C, C++, JavaScript (Basic)
- Frameworks & Tools: Django, React, Node.js, REST APIs, Git, GitHub
- Databases: MySQL, MongoDB, Firebase

Achievements & Hackathons

- **Smart India Hackathon (SIH) 2025 Finalist** — National-level software innovation challenge
- **Solved 100+ problems on LeetCode**, demonstrating consistent problem-solving skills
