

KARTIK GARG

+91 6398384440, Greater Noida, Uttar Pradesh

✉ gargkartik623@gmail.com in linkedin.com/in/kartikgarg146 📄 github.com/kartikgarg146

Professional Summary

Software Developer with experience in Python, React, Django, Flask, and Machine Learning with experience building web applications, REST APIs, and backend systems. Knowledge of DSA, DBMS, OOP, Operating Systems, and API development with experience in full-stack projects and software testing.

Education

Noida Institute of Engineering & Technology, Greater Noida
B.Tech in Computer Science & Engineering (AI/ML)

2023 – 2027
CGPA: **8.81 / 10.0**

Experience

Python & Machine Learning Intern *CodSoft (Remote)* May 2025 – Jun. 2025

- Developed ML models using XGBoost and Random Forest for fraud detection on 284K+ records with **93.4% accuracy**.
- Engineered an NLP spam classifier using TF-IDF, Naive Bayes, and SVM with **96.1% accuracy**.
- Created a Python password generator with multiple security modes and password validation features.
- Evaluated model performance using preprocessing, feature engineering, and cross-validation techniques.

Projects

Mental Health Chatbot & Tracking System 🔗 Live Demo
React, Flask, TypeScript, Gemini API Jan. 2026 – May. 2026

- Developed a mental health web application with mood tracking and dashboard analytics.
- Connected Gemini API for chatbot interaction with average response time below **1.2 seconds**.
- Added JWT authentication and Flask REST APIs for user authentication and backend communication.
- Coordinated with a 3-member team using Git and GitHub for testing and deployment.

Sadda Safar — Real-Time Public Transport Tracking System 📄 GitHub
Django, Python, GPS Tracking Sep. 2025 – Dec. 2025

- Led a 3-member team to create a GPS-based public transport tracking system with live updates every **5 seconds**.
- Reduced API response time below **200ms** during concurrent requests through backend optimization.
- Added geofencing and route monitoring system, improving tracking accuracy by **35%**.
- Resolved backend and API issues to improve application reliability under low-network conditions.
- Presented project updates and backend workflows during weekly team discussions.

Technical Skills

- Languages:** Python, C++, JavaScript, TypeScript
- Frameworks:** React, Django, Flask, Node.js
- Databases:** MySQL, MongoDB, Firebase
- Tools:** Git, GitHub, Postman, REST APIs, VS Code
- Core CS:** DSA, OOP, DBMS, Operating Systems, Computer Networks
- Practices:** Software Development, Debugging, Testing, API Development

Certifications

- NPTEL Elite** – Introduction to Programming in C
- Infosys Springboard** – React JS, Object-Oriented Programming using Python
- Cisco Networking Academy** – Cybersecurity Essentials

Achievements

- Smart India Hackathon (SIH) 2025 Finalist** – Led a 5-member team during a national-level software development competition.
- Solved **170+ DSA problems** on LeetCode across arrays, trees, graphs, and dynamic programming.
